Encrypted IP DESFire/QR Access Single Door Controller

Product Description

XP-Q1200/IP controller is single door encrypted IP DESFire QR access controller that supports the latest contactless access control technologies – MIFARE DESFire EV2, EV3 and Dynamic QR Code. XP-Q1200/IP offers the highest security measure in access control system with encrypted data communication from start to finish using the very secure algorithms of Triple DES (3DES), 3KDES & AES. The QR Code is encrypted with MicroEngine’s proprietary encryption. The XP-Q1200/IP controller also provides the highest security control in access control system as it supports the RFID chips with UID up to 64-bits. This high capacity controller is backward compatible with MIFARE DESFire EV1.
